\*Each team practices for 15 mins on each sheet, then rotates A to B to C to D

A coin toss will decide the first and second pre-game practice for each team's first game, thereafter the team with dark coloured stone handles will have first practice. At the conclusion of the team's pre-game practice, two players each deliver a stone to the tee at the home end; the first stone with a clockwise rotation, and the second stone with a counter-clockwise rotation. The distances are combined to determine the Last Stone Draw (LSD) for that game. The team with the lesser LSD distance has the choice of delivering first or second stone in the first end. If the LSD totals are equal, the team with the best unequalled LSD stone has the choice. If the case where the LSD stones are equal, a coin toss will determine which team has the choice. First named teams in each draw play the stones with the dark coloured handles, and wear dark coloured upper playing garments. Second named teams in each draw play the stones with the light coloured handles, and wear light coloured upper playing garments.
